# Your Monthly Maintenance Report

Date Range: October 11, 2025 - November 11, 2025

November 10, 2025

Hi<CLIENT>

Thank you for trusting LaunchPad Web Designs to keep your website running smoothly and securely. Your website is a vital part of your business, and we take great care in ensuring it remains up-to-date, secure, and optimized for performance.

This report gives you a detailed breakdown of the maintenance we performed over the past month to keep your site secure, fast, and running smoothly.

What This Means for You:

- Maximum uptime – Your site was online and accessible to visitors.
- Stronger security – Updates and monitoring helped protect against threats.
- Better performance – Optimizations kept everything running smoothly.
- Reliable backups – Just in case, your data is safe and recoverable.

Regular maintenance prevents issues before they happen, ensuring your visitors always have a seamless experience.

Have questions or need assistance? Feel free to contact us.

Best regards,

Toby Miletta

Owner and Lead Developer

LaunchPad Web Designs

SAMPLE REPORT

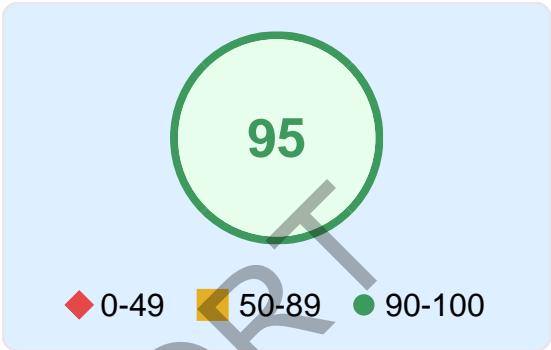

# Performance

Date Range: October 11, 2025 - November 11, 2025

## Performance

Website performance is crucial for a fast, seamless user experience. Visitors expect a site to load quickly, and that first impression can make or break their engagement. A well-optimized website not only enhances user satisfaction but also strengthens your brand's credibility and success online.

<div>● First Contentful Paint (FCP)</div> <div>Time it takes for the first visible element to appear on the screen</div>	0.4 s
<div>● Time to Interactive (TTI)</div> <div>Time it takes for the page to become fully usable and responsive.</div>	0.6 s
<div>● Speed Index</div> <div>Measures how quickly the visible parts of the page are displayed during loading.</div>	1.6 s
<div>● Cumulative Layout Shift (CLS)</div> <div>Tracks unexpected layout shifts to ensure a visually stable experience.</div>	0.089
<div>● Total Blocking Time (TBT)</div> <div>The total time during loading when the page is unresponsive to user input.</div>	20 ms

# Updates

Date Range: October 11, 2025 - November 11, 2025

Regular updates are vital to keeping your WordPress site secure, optimized, and running smoothly, ensuring the best performance and protection against potential threats.

# Backups

Date Range: October 11, 2025 - November 11, 2025

Regular backups are essential for protecting your website and ensuring a quick recovery in case of data loss, accidental changes, or security breaches. In addition to your hosting provider's automated backups, we maintain multiple copies of your site, providing an extra layer of security and peace of mind.

✓ Your website is backed up regularly and securely.
