Your Monthly Website Report

Date Range: September 19, 2026 - October 19, 2026

October 19, 2026

Hi ,

Here is your website care report for September 19, 2026 - October 19, 2026.

During the past month, I monitored your website's uptime, security, performance, updates, and backups to help keep it protected, dependable, and running smoothly. This report also includes website traffic, completed maintenance, and any additional work performed during the reporting period.

The goal of your LaunchPad maintenance plan is to handle the important work behind the scenes, identify potential issues early, and keep your website ready to support your business and its visitors.

Please feel free to contact me if you have any questions about the report or would like to discuss an update or improvement to your website.

Best,
Toby Miletta
Owner & Lead Designer
LaunchPad Web Designs

Website Availability & Uptime

Date Range: September 19, 2026 - October 19, 2026

Continuous Uptime Monitoring

Your website is monitored around the clock so we can be alerted quickly if it becomes unavailable. This allows potential downtime to be identified and addressed as soon as possible, helping keep your website accessible and dependable for your visitors.

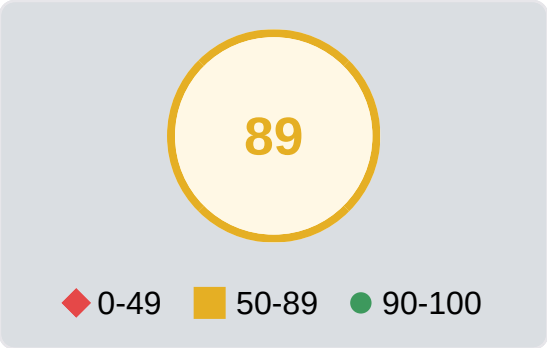

Status	Up	Uptime rate	100.00%

Website Speed & Performance

Date Range: September 19, 2026 - October 19, 2026

Performance Monitoring

Website speed plays an important role in user experience and search visibility. We regularly monitor your website's performance to help identify opportunities for improvement and ensure your site remains fast, responsive, and enjoyable for your visitors.

- **First Contentful Paint (FCP)** — 0.9 s
  Time it takes for the first visible element to appear on the screen
- **Total Blocking Time (TBT)** — 0 ms
  The total time during loading when the page is unresponsive to user input.
- **Cumulative Layout Shift (CLS)** — 0
  Tracks unexpected layout shifts to ensure a visually stable experience.
- **Speed Index** — 0.9 s
  Measures how quickly the visible parts of the page are displayed during loading.

WordPress Updates Completed

Date Range: September 19, 2026 - October 19, 2026

Keeping WordPress, themes, and plugins up to date is one of the most important parts of maintaining a healthy website. Regular updates help improve security, enhance compatibility, fix bugs, and ensure your website continues to perform reliably as WordPress evolves.

Last plugin updates

Plugin	Version	Updated On
WP Rocket	3.12.3 > **3.12.4**	October 19, 2026

Website Security & Monitoring

Date Range: September 19, 2026 - October 19, 2026

Protecting your website requires more than occasional scans. As part of your maintenance plan, we continuously monitor your website for potential security threats, vulnerabilities, and other issues so they can be identified and addressed as quickly as possible. This proactive approach helps keep your website secure, stable, and available for your visitors.

Monitoring of vulnerabilities

Monitoring of vulnerabilities	**Every 6 hours**
SSL monitoring	✓
Domain monitoring	✓
Virtual Patching enabled	✓
PHP Issues monitoring	✓

Site Health

WordPress version	**6.7.1**
Database optimizations performed	**5**
Website indexability	✓
PHP version	**8.1.29**
Safety of the PHP version	✓

Website Backups & Recovery Protection

Date Range: September 19, 2026 - October 19, 2026

Regular backups are one of the most important safeguards for your website. As part of your LaunchPad Website Care plan, your website is backed up routinely to help protect against accidental changes, data loss, website issues, and other unexpected events. Combined with your hosting provider's backups, this layered approach provides additional protection and peace of mind.

✓ **Your website is backed up regularly and securely.**

Number of backup available	**30**
Last backup	**October 18, 2026**
Backup frequency	**Daily**
